DETAILED ACTION

1. This Office Action is in response to the Amendment filed 02/28/05 and the Terminal Disclaimer filed 04/21/05.
2. The terminal disclaimer filed on 04/21/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6380950 has been reviewed and is accepted. The terminal disclaimer has been recorded.
3. Claims 33 and 35-37 are allowed.
4. Reasons for allowance:

Restated in "Reason for allowance" in the parent application 09/233687:

None of the prior art made of record, alone or used in combination, fairly teaches or suggests the use of "a director module", "an image module", "an audio module", and "a script module", wherein the "director module uses said image module and instructions in said script module to compute a series of real-time screen transitions and combines said real-time screen transitions with associated audio to render a high quality digital video on a display screen" in a specific combination as cited in claim the independent claim 33. These limitations define patentably over relevant prior art made of record.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
